The Dutch Women's Council ([Dutch](#): Nederlandse Vrouwen Raad (NVR)) was founded in 1898 as an [umbrella organization](#) to unite women's groups across the country in their struggles for women's equality. In the past years livelihood/ social insecurity has become an important issue in the Dutch society. Poverty and financial dependency are risk factors for domestic violence and diminish the possibility to escape from it. Empowerment, financial independency and equal pay are important goals of the council.

The sixty-eighth session of the [Commission on the Status of Women](#) will take place from 11 to 22 March 2024. Priority theme: Accelerating the achievement of gender equality and the empowerment of all women and girls by addressing poverty and strengthening institutions and financing with a gender perspective. Review theme: Social protection systems, access to public services and sustainable infrastructure for gender equality and the empowerment of women and girls (agreed conclusions of the sixty-third session).
